Idorsia Company Profile

Headquartered in Switzerland – a biotech-hub of Europe – Idorsia is a high-potential biopharmaceutical company, specialized in the discovery, development, and commercialization of innovative small molecules, with the aim of transforming the horizon of therapeutic options.

We have a 25-year heritage of drug discovery, a broad portfolio of innovative drugs in the pipeline, an experienced team of over 750 professionals covering all disciplines from bench to bedside, and commercial operations in Europe and North America – the ideal constellation for bringing innovative medicines to patients.

Idorsia was incorporated in March 2017 and listed on the SIX Swiss Exchange (ticker symbol: IDIA) in June 2017.

Idorsia Ltd is part of the following indices: SPI, SPIEX, SPI ESG, SXSLI, SXI Life Sciences, SXI Bio+Medtech, and SSIRT.

Idorsia is traded under the following symbols:
Reuters IDIA.S / Bloomberg IDIA:SW.

Company Strategy

We will develop Idorsia into a leading biopharmaceutical company, with a strong scientific core. We have identified five key strategic priorities to ensure the company's success going forward.

Advance late-stage pipeline
We believe that our development compounds have the potential to significantly change treatment in their target diseases, resulting in medicines with substantial commercial potential.

Successfully launch our new products
In order to successfully bring our pioneering therapies to patients and to maximize the value of our innovations, we will continue to build and strengthen our global commercial organization.

Bring Idorsia to sustainable profitability
We are building Idorsia with a long-term focus and ambitious aspirations. By advancing our development pipeline and successfully launching our first products, we aim to bring Idorsia to sustainable profitability as soon as possible.

Fuel our pipeline with new discoveries
While launching our first marketed products and developing our late-stage clinical pipeline to bring our innovative therapies to patients, we also continue to discover new compounds.

Utilize state-of-the-art technologies to drive innovation
As we wish to remain at the cutting edge of science, it is vital that we consider innovative approaches and utilize state-of-the-art technologies at each stage of the process, from bench to bedside.
