E. Disclosure of Compensation Systems
 a) to prepare the Compensation Report for approval by the Board; and
 b) to review compliance of the Compensation Report with the requirements of the Swiss Code of Obligations and the Ordinance against Excessive Executive Remuneration in listed Stock Corporations.

F. Reporting to the Board
 To Inform the Board about policies, programs and key decisions as well as statistical comparisons of compensation levels at key competitors and regularly report to the Board on the decisions and deliberations of the Committee.

G. General Responsibilities
 To assume other responsibilities assigned to it by law, the Articles of Associations and by the Board.

Board compensation
 The NGCC makes proposals for the compensation of the Board. In determining these recommendations, the Committee takes account of benchmarking and a review of market practice within companies with a similar market capitalization to Idorsia in Switzerland, carried out by an independent external advisor. The recommendation is approved by the Board of Directors, where all Members of the Board have a right to attend and a right to a say except for the Chairman, who has no right to a say in any decisions regarding his compensation.

The compensation of other non-executive directors is approved by the Board of

Directors, where all Members of the Board have a right to attend and a right to a say. In determining these recommendations, the Board of Directors takes account of benchmarking and a review of market practice within companies with a similar market capitalization to Idorsia in Switzerland, carried out by an independent external advisor. The Committee has appointed Alvarez & Marsal (London office) as its independent external advisors to provide guidance on compensation matters.

Executive compensation
 The CEO's compensation is approved by the Board of Directors based on the proposal of the NGCC. All members of the Board have a right to attend and a right to a say, except for the CEO, who has a right to attend this meeting but has no right to a say. The proposal takes into account both market practice within various groups of companies with which Idorsia competes for talent (as determined by an independent external advisor) and performance against predetermined targets during the relevant year.

The compensation of the CEO's direct reports is approved by the NGCC based on the CEO's recommendations. The CEO has a right to attend this meeting but has no right to a say. The CEO's recommendations take into account both market practice within various groups of companies with which Idorsia competes for talent (as determined by an independent external advisor) and performance against predetermined targets during the relevant year. Targets used

to determine payout levels for variable compensation elements such as the short-term incentive plan (STIP) and the long-term incentive plan (LTIP) are set by the Committee on an annual basis, prior to the start of the year in which performance is measured.

Detailed information is provided in the "Compensation Structure: CEO and all other IEC members" section of the Compensation Report 2022.

NGCC Meetings
 The NGCC usually meets four times a year. In 2022, it met four times – three times in person and once by video conference. Each meeting took on average two hours.

The Chairman may, at his discretion, invite any person to attend the meetings. The CEO regularly attends the meetings, while the independent committee advisors are invited at least once a year to attend portions of the meeting. In 2022, the CEO attended all meetings, while the independent committee advisors participated in three meetings for selected topics.

Finance & Audit Committee
 The FAC assists the Board in the oversight of the integrity of the financial statements of the company, the qualifications and independence of the External Auditor (EA), the performance of the company's Internal Audit (IA) function, and the company's policies and practices with respect to major financial risk exposures.

The FAC is directly responsible for compensation and oversight of the work of the EA, including: (1) having the authority (subject to shareholder approval) to appoint or replace the EA; (2) approving the compensation of the EA; (3) reviewing the audit scope and audit plan of the EA; (4) reviewing the scope and plan for the EA's audit of the existence of the company's internal controls over financial reporting as per Swiss law; and (5) pre-approving all permitted non-audit services to be performed by the EA, and establishing policies and procedures for the engagement of the EA to provide permitted audit and non-audit services. Regular private sessions are held, attended only by FAC members and the EA, without management present.

The FAC also oversees the company's IA function, including: (1) reviewing and approving the internal audit plan, including the plan for testing of internal controls over financial reporting; (2) reviewing significant reports to management prepared by IA (and management's responses); (3) reviewing the results of the internal controls testing, including any significant deficiencies or material weaknesses identified in the testing (and management's responses); and (4) discussing the responsibilities, budget and staffing of the IA function.

The FAC further performs the following tasks relating to financial reporting: (1) reviewing key accounting policies, significant accounting estimates, and significant related-party transactions, and recommending changes in key accounting

policies to the Board of Directors; (2) monitoring the financial reporting process, reviewing the adequacy and effectiveness of the systems of internal controls over financial reporting (including deficiencies and significant changes in internal controls reported to the FAC), and approving significant changes therein; (3) monitoring the effectiveness of the risk management systems in relation to financial reporting; (4) reviewing, with management, the annual and quarterly financial results; and (5) reviewing earnings press releases and earnings guidance.

Moreover, the FAC oversees in material respects the company's compliance with applicable financial and securities laws, and supervises procedures implemented to ensure compliance with these laws.

The FAC reports to the full Board of Directors at regular intervals and submits proposals for Board resolutions, if necessary. The FAC meets at least four times a year. In 2022, it met seven times (three times in person and four times by video conference). Each meeting took on average 1.5 hour.

The Chairman may, at his discretion, invite any person to attend the meetings. In 2022, the CFO attended all meetings. Also, external consultants joined seven meetings.

Working Methods of the Board of Directors and its Committees

The Board of Directors meets at least four times a year. In 2022, it met six times – three

times in person and three times by video conference – with an attendance record of 100%. The average duration of Board meetings is approximately 4 hours. When the situation so warrants, the Board of Directors holds additional ad hoc meetings or telephone conferences to discuss specific topics. Any member can request a meeting. The CEO is entitled to attend every meeting of the Board of Directors and to participate in its debates and deliberations, except for executive sessions. Other members of the Executive Committee also regularly attend meetings of the Board of Directors. External consultants may be invited to attend meetings of the Board of Directors, depending on the topic under consideration. In 2022, the full Executive Committee attended all Board meetings. External consultants attended five meetings in 2022.

The management presents reports and the Board then takes decisions by majority vote on the relevant issues, except where the Board has delegated specific decisions to a Committee.

In the case of Committees, after the presentation of the issue by the management, the Committee takes a preliminary decision for approval by the full Board, which will be reported along with the details of the issue to the entire Board, who will take the final decision, except where the Board has delegated specific decisions to a Committee.

Information and Control Instruments Vis-à-Vis the Executive Committee

The Board of Directors receives regular reports regarding the financial and business situation of the company and quarterly reports presented by the CEO. Additionally, the FAC receives quarterly financial results before they are released to the public.

Internal controls over financial reporting (ICFR) were established in 2017. In the financial area, the Board is informed regularly, at least once a year, of financial risks and the proposed actions to be taken in the form of ERM (enterprise risk management). Idorsia's risk management systems primarily address the areas of development, business operations and finance.

The internal review of clinical development ensures the safe development of products. The global quality management function performs independent quality audits ensuring Good Clinical Practice within clinical development, thereby adhering to globally recognized ethical and quality standards for the development of investigational medicinal products. A program of Internal Audit assignments provides a systematic and disciplined approach to evaluating and improving the effectiveness of the risk management, control and governance processes within the Group. These are reviewed by the FAC and, where appropriate, by the NGCC. The FAC receives Internal Audit reports at the conclusion of each audit assignment. These reports detail risks arising in the areas of operations, compliance, and ICFR. The Chairman of the FAC presents a summary of each report to the full Board of Directors at their regular meetings. On request, Internal Audit reports are disseminated to the full Board of Directors.

Shareholders' Participation Rights

Voting Rights Restrictions and Representation

Only shareholders who are entered in the share register of the company are entitled to vote at the General Meeting of Shareholders (Article 5 paragraph 2 of the Articles of Association). The deadline for being entered in the Share Register is set approximately 10 days prior to the General Meeting of Shareholders; the exact date is made public with the press release following the presentation of the financial results to the public for the full year ending on December 31.

Under Article 5 paragraph 3 of the Articles of Association, any acquirer not expressly stating in its application form that the shares are held for its own account ("Nominee") may be entered in the share register as a shareholder with voting rights for a maximum of 5% of the share capital outstanding at that time. Above this limit, registered shares held by a Nominee will only be registered with voting rights if the Nominee in question at the application for registration or thereafter upon request by the Company makes known the names, addresses and shareholdings of the persons for whose account it is holding 1% or more of the share capital outstanding at that time,

and provided that the notification duties specified in the FinMIA are complied with. The Board of Directors has the right to conclude agreements with Nominees concerning their notification duties.

Under Article 5 paragraph 4 of the Articles of Association, subject to Article 652*b* paragraph 3 of the Code of Obligations, the above-mentioned limit for registration also applies to the subscription for or acquisition of registered shares by pre-emptive, option, or convertible rights arising from shares or any other securities issued by the company or third parties.

Under Article 5 paragraph 5 of the Articles of Association, legal entities or partnerships or other associations or joint ownership arrangements which are linked through capital ownership or voting rights, through common management or in like manner, as well as individuals, legal entities or partnerships (especially syndicates) which act in concert with the intent to circumvent the entry restrictions are considered as one shareholder or Nominee.

Under Article 5 paragraph 6 of the Articles of Association, the company is authorized to delete entries in the share register as

shareholder with voting rights with retroactive effect if they were effected on the basis of false information or if the respective person does not provide the information requested. The person concerned has to be immediately informed about the deletion.

The company has not granted exceptions with respect to these restrictions to voting rights during 2022.

Under Article 13 paragraph 2 of the Articles of Association, a shareholder may only be represented (i) by the Independent Proxy (elected by the General Meeting of Shareholders) or (ii) by another shareholder.

As specified in Article 13 paragraph 6 of the Articles of Association, the voting on resolutions and elections at the General Meeting of Shareholders shall be conducted by an electronic voting and election system – to the extent that this is possible at the Meeting. If not, resolutions or elections will be taken on a show of hands, unless a written ballot is held upon resolution of the General Meeting or if the person chairing the General Meeting so directs.

1. the cases listed in Article 704 paragraph 1 CO and in Articles 18 and 64 of the Federal Act of October 3, 2003 on Merger, Demerger, Conversion and Transfer of Assets (Merger Act, SR 221.301) in the relevant applicable version;
2. the easing or revocation of restrictions on the transferability of registered shares;
3. any amendment of Article 1 of the Articles of Association;
4. any creation of shares with preferential rights or with privileged voting rights;
5. any restrictions on the transferability of shares;
6. any authorized or conditional capital increases;
7. any increase of capital against the company's equity, against contributions in kind, or for the purpose of acquiring assets or the granting of special benefits;
8. any limitation or withdrawal of subscription rights;
9. any change of the registered office or corporate name of the company;

10. any sale of all or substantially all of the assets of the company;
11. any merger, demerger, or similar reorganization of the company;
12. the liquidation of the company; and
13. any change to Article 14 of the Articles of Association.

Convocation of General Meeting of Shareholders

Under Article 10 of the Articles of Association, Meetings of Shareholders are convened by the Board of Directors and, if necessary, by the auditors by means of a one-time notice in the Swiss Official Gazette of Commerce at least twenty calendar days prior to the date of the meeting. The notice shall state the day, time and place of the meeting, the agenda, the proposals of the Board of Directors, and the proposals of the shareholders who have requested the General Meeting or that an item be included on the agenda.

Agenda

Registered shareholders with voting rights individually or jointly representing at least five percent of the share capital of the company may demand that items be put on the agenda. Such demands have to be submitted to the Chair of the Board of Directors at least 45 calendar days before the date of the General Meeting and shall be in writing, specifying the item and the proposals. The exact deadline for sending in proposals is made public approximately two months prior to the date of the General Meeting of Shareholders.

Entries in the Share Register

The relevant date determining the right of shareholders to participate in the General Meeting on the basis of entries in the share register is set by the Board of Directors in the invitation to the General Meeting of Shareholders.

Change of Control and Defense Measures

Duty to Make an Offer

The company does not have a provision on opting-out or opting-up in the Articles of Association. The threshold of 33⅓ percent of the voting rights of a target company specified in Article 135 of the Financial Market Infrastructure Act (FinMIA) is thus applicable.

Change-of-control clauses

Benefits under the company's equity plans vest upon a change of control. The equity plans provide that, contingent upon the occurrence of a change of control, transfer restrictions or retention periods are canceled, and applicable performance metrics are determined on a pro rata basis. Further details regarding benefits provided under the company's equity plan are set out in the "Compensation structure: CEO and all other IEC members" section of the Compensation Report 2022.

Information Instruments Pertaining to the External Audit

The FAC is responsible for reviewing the internal control of the accounts and finances of the company via its supervisory activities over both external and internal audit functions (see page 19). This process continues to be supported by the increased transparency resulting from internal controls over financial reporting at all FAC meetings. The external auditors meet with the FAC to present their plan, scope, audit approach, budget, and audit results. The FAC reviews these and evaluates the independence of the external auditors from a risk analysis perspective. In addition, the auditors present their opinions resulting from an audit of the financial statements, along with an annual management letter. The company has

ensured that the auditors' partner in charge has unrestricted access to the Chairman of the FAC and fulfills all independence criteria. In 2022, the external auditors met seven times with the FAC.

Regarding the selection of external auditors, the FAC will, from time to time, assess offers and presentations from several appropriate, independent external audit firms and will then make a proposal to the full Board for election, based on predefined service level in terms of the nature of services to be rendered by the external auditors and quality criteria, such as technical and operational competence, independence and objectivity, ability to meet timelines for reporting and to provide effective and practical recommendations, and effectiveness of communication. The final approval of the external auditors is made by the shareholders at the General Meeting of Shareholders.
